

Machine Learning meets High Performance Computing Reading Group Summer 2018

Open to all, regardless of level of expertise.

All meetings Thursdays 10-11am in Cassava Conference Room (LARP)

Meeting format: a 10-minute crash tutorial on the week's theme, followed by discussion focused on the *primary reading*. *Supplementary reading* is suggested for additional information on the topic, and *introductory reading* is strongly suggested for newcomers.

Attendees are encouraged to read and contribute according to your level.
